MODERNIZATION

Renovation of lifts in existing buildings

When modernity means comfort

Nowadays, lifts are much more than an accessory in our buildings. They are a fundamental element for our quality of life and have to evolve with us, as our quality of life does. In our field, **advances and improvements** constantly provide new options in terms of comfort and aesthetics. This, along with the natural debilitation of what we use daily and the change of regulations, recommends us a periodical renovation of our lifts.

MP is on the vanguard in the field of elevation. Modernity doesn't lie solely in our products: our services are supported by an enormous experience in the sector and by an **innovative view** that guarantees **customised, efficient and profitable solutions**.

Our renovation plans don't only consider the possibility of **replacing your old lift** by a new one: we can also advise you on the renovation of your current lift, by **practical kits** conceived to improve its performance at very competitive prices. Let us advise you: our professionals will help you to give a boost to your quality of life, with a minimum effort.

FREEDOM OF MOVEMENT IN YOUR HANDS

MP FLEXIBILITY

A service tailored to your capacities

At MP we are experts in **customised solutions** and the modernisation of existing lifts. For each case, we take into account functional, aesthetic and economic aspects, along with everything related to current regulations, in order to guarantee the best solution adapted to the specific needs of every single customer.

FLEXIBILITY

In the case of existing buildings, adaptability is an authentic challenge. Only a **wide range of options and a number of years of experience** can provide solutions fitting the current installation, improving where necessary and keeping what works. At MP we overcome obstacles **innovating design, manufacturing and installation**. We also carry out detailed assessments of the project before, during and after installation.

SAFETY AND RAPIDITY

Years of research and creation result in efficient and safe products and procedures. All resources, technical and human, are in the service of the same goal: **rapid implementation and full safety** of the planned building work.

GOOD VALUE FOR MONEY

Our products' reliability, along with the extensive range of options we provide, guarantees **the best value for money** for any available solution. The economic aspect is vital while choosing a renovation plan, without losing sight of the customer's desire. In this sense, **modernisation kits** are the optimum solution for a number of cases.

TAILORED FINANCING

People's comfort shouldn't be limited by economic restrictions. That is why, MP supplies tailored solutions: interesting agreements with financial institutions can provide a **maximum of 100% of the project cost**.

SERENITY AND EFFICIENCY

Constant advisory service for your peace of mind

At MP, we strive for customers' comfort in every sense. For this reason, we don't only bring experience and professionalism to every project: we also augment our technical service with a **number of additional services** aimed at making the procedure easier for the customer. **For peace of mind**, at all the phases of the project we provide:

TECHNICAL ADVICE SERVICE

Each case has its own peculiarities. For this reason, the project starts with a detailed analysis of the current lift's condition, assessing which aspects need to be worked on and those needing to be renovated. Depending on the analysis results, we offer the customer the most practical and convenient solution (partial or full renovation), the one that better adapts to his/her needs. Obviously, all our projects comply with current regulations.

LEGAL ADVICE SERVICE

At MP, we are experts on whatever concerns elevation. Our meticulous knowledge of current regulations guarantees peace of mind and reliability to the residents' association. They can count on the **alleviation of any doubt** that could arise during the process.

INSTALLATION

At MP, installation and modernization procedures **have been studied and optimized for years** in order to achieve the best performance in terms of safety and efficiency. In case of either partial or full renovation, we carefully plan the project phases in order to carry out the complete installation in the minimum possible time, without causing any negative impact for the community.

MAINTENANCE

Our job doesn't end with the lift's renovation. We can also provide its maintenance during **its lifetime**, advising you on possible decisions, both in terms of technical aspects and legal concerns.

PARTIAL RENOVATION

You choose aesthetics, we supply with comfort

If something works, we shouldn't throw it out, reject it. But if we can make something better, why not do that? At MP, the two attitudes are compatible, thanks to its partial renovation plans, especially suitable for those cases where full renovation is not required. MP Kits are **practical, comfortable and economical**, all allowing you to modernize your lifts according to your needs. You can easily choose and modify **specific technical and aesthetic aspects**, keeping all that still correctly works

Each kit includes the necessary equipment to carry out the adjustments and all comply with current regulations. You will only have to decide how you want your lift to be... and then to enjoy it.

FULL RENOVATION

Your lift up to date, with total peace of mind

If your lift is very old or in very bad condition, replacing it with a new one can be more profitable. This will guarantee a longer lift lifetime and the possibility of enjoying a fully renovated machine, both technically and aesthetically. Whatever your building's features are – space restrictions, aesthetic profile, passengers' traffic flows – you can choose from among a **truly wide range of options**. You will find the product that best adapts to your taste and needs.

New lifts not only include the latest technological advances: they also increase the number of available solutions in terms of aesthetics and comfort. **MP ARES** and **MP STRUCTURA** are two specific products for the full renovation of your lift. Alone or combined, they both belong to a extensive line offering varied solutions in terms of product and price.
